

smartAHD

smartAHD (After-Hours Depository) is a revolutionary product bringing advanced functionality to legacy and new financial night depository transactions. smartAHD turns traditional depository systems into keyless, receipt-giving smart depositories with the ability to provide same day provisional credit to any Financial Institution's merchant customer base.

smartAHD Features & Benefits:

- Works with most existing depositories
- Uses Quick Response (QR) Codes
- Provides GPS-tagged proof-of-deposit email receipts
- Supports multiple means of deposits
- Capable of supporting provisional credit
- Online Reconciliation Process
- Activity Reporting
- Single Push Button Reconciliation
- Supports scheduled AHD bag sweeps
- For extremely old/worn-out heads, a new UL-Listed replacement head is available, meeting ADA guidelines for accessibility & ease of operation
- Cost-effective and scalable

smartAHD is comprised of the following:

- Traditional Night/After-Hours Depository
(new or existing)
- Ruggedized Touchscreen in Custom Mount
- Solenoid Switch for automatic head unlocking
- Custom Software
- Network Communications *(LAN, Wi-Fi or Cellular)*

Here's how smartAHD works:

- Pre-Stage a Transaction via Web Portal, Smartphone or at the Depository itself
- Present QR Code to the Touchscreen's Camera
- Drop the Depository Bag/s in the Head
- Receive GPS-tagged Email Confirmation
